

Unique characteristics

Backflow protection unit type

MEDICARE kitchen mixer

MEDICARE kitchen mixer is designed for professional kitchens. The ergonomic lever is easy to operate with the whole hand and provides good control even for users with reduced hand function. The low spout is compact, easy to control and reduces the risk of splashing. An ideal solution where space is limited.

A choice between PEX or copper connections offers flexibility during installation and makes it easy to tailor the solution to specific project requirements.

About the collection

MEDICARE is FM Mattsson's range of products for healthcare and care settings with high requirements for hygiene, safety and accessibility. The products are made from lead-free brass and combine a construction designed for easy cleaning with well-thought-out design, ergonomic controls and safe temperature settings.

With a 10-year spare parts guarantee, Medicare is a reliable, long-term choice for professional installations.
