Touch-free mixer with
unique characteristics

FM Mattsson 9000E Tronic

Touch-free mixer with unique characteristics

Vandal-proof

Built-in battery, no hanging cables, lockable mixer settings, temperature knob can be replaced with a cover. All these features are designed to make the mixer as safe as possible.

Operational reliability

Polarity-independent connection minimises the risk of incorrect wiring and ensures reliable operation and easy maintenance.

Lead-free

FM Mattsson 9000E Tronic is lead-free.

Scald protection

The mixer has a temperature limiter that can be set to prevent the temperature knob from being turned to maximum.

Battery and mains operation in the same model

The mixer comes prepared for both battery and mains operation, and it is easy to switch between the two.

Temperature knob

The FM Mattsson 9000E Tronic is available with or without a temperature knob. If you choose a model with a temperature knob, you can replace the knob with a cover after setting the temperature.

Easy to programme

It is easy to programme the mixer by holding your finger in front of the sensor according to the instructions. If you prefer to programme it with the remote, that is just as easy.

Plenty of options

The FM Mattsson 9000E Tronic has six preconfigured programmes plus a seventh programme for manually setting after flush time, hygiene flush time and flush intervals using a remote control.

Automatic hygiene flushing for increased hygiene

The FM Mattsson 9000E Tronic has an automatic hygiene flushing function as well as a manual flushing function. There are models available with an extra cable for centrally controlled hygiene flushing.

All electronics above the worktop

The FM Mattsson 9000E Tronic has all electronics inside the mixer body for easy maintenance.

Installation friendly

The standard model is equipped with swivel hoses and swivel nuts to prevent the hoses from twisting during installation.

Energy-efficient and economical

With the FM Mattsson 9000E Tronic, you can choose the flow delay time you want. This makes the mixer safer, more energy-efficient and more economical. Eco Flow 5 l/minute.
