

## Unique characteristics

## FM Mattsson tronic compact WMS, for premixed water, battery operation

**Article number:** 95160000 **RSK:** 8320230

**Description:** Chrome, battery operation, included battery and mounting plate

- Tronic Copcompact with possibilities of wireless connection (subscription is required)
- With mixing valve
- Battery operation, can be converted to mains operation
- Connection up G1/2"
- Solenoid valve, shut-off valve and electronics integrated in the shower head
- Programmable start button. Rinsing time from 10–60 seconds, (30 seconds is the factory preset)
- Flush Timeout - safety shut-off to prevent flooding, maximum of 5 minutes
- Jet angle adjustable +/- 5°
- Flow limiter 9 l/min
- Can be turned off by solenoid valve (eg for cleaning)
- Low power consumption - Long life
- Equipped with system for thermal disinfection against legionella
- IP class sensor, IP67

### Installation:

- The power cable between the shower head and the start button should ideally be placed in the joints between wall tiles or in a pipe, but take care not to damage the wall's moisture barrier
- Mains operation requires installation of the AC adapter FMM S600131, and power supply FMM S600129 alternatively transformer FMM S600128, plus extension cable FMM S600127

### Tronic WMS:

- Note! Gateway and subscription or dongle are required for the WMS function
- The following options are available with wireless connection to our Tronic WMS system:

- Programmable rinsing time from 10–60 seconds, (30 seconds is the factory preset)
- Selection of activation type:
  - Saving mode, set time, always flush at the same time, factory preset mode
  - Normal, rinsing time is extended if you press again before it stops
  - Switching mode, set time, reactivation interrupts flushing
- Adjustable hygiene flushing, interval and rinsing time (in order to prevent stagnant water)
- Logging of all flushings with point of time, water consumption and temperature for individual mixer or group of mixers (minimum, maximum and average values)
- Battery monitoring
- Built-in temperature measurements of mixed water temperature
- Programmable temperature stop, the mixer will turn off directly at set maximum temperature
- Initiate hot water rinsing
