

Unique characteristics

Backflow protection unit type 

9000E head shower kit

A flexible solution for those who want to enjoy both an overhead shower and a hand shower. At the core is an energy-efficient mixer in a timeless design, paired with a shower rail that includes a shelf for soap and shampoo. The mixer ensures a consistent temperature and smooth water flow in all conditions—providing safety and comfort for the whole family.

The mixer features an Eco-stop function that automatically reduces water consumption. For a higher flow, simply press the Eco function button. The mixer meets energy class A standards.

About 9000E

Timeless, classic design with a range of smart, energy-saving features. That's why the 9000E series is the natural choice in so many homes and public spaces. A stylish way to save both water and energy. All mixers in the series are certified and comply with current building regulations.
